Supplemental Financial Information, Non-GAAP Financial Measures, and Other Metrics

Statement Regarding Use of Non-GAAP Financial Measures
This supplemental financial information contains certain non-GAAP metrics and other non-GAAP financial measures. This presentation contains our reconciliation of those non-GAAP metrics and other financial measures.

We report non-GAAP financial measures in addition to, and not as a substitute for, or superior to, financial measures calculated in accordance with GAAP.
Our non-GAAP presentation of gross profit, gross margin, operating expenses, operating loss, net loss and net loss per share measures exclude stock-based compensation expense, charitable contributions and amortization of acquired intangibles

We present current calculated billings as revenue plus the change in current deferred revenue during the period, and we present calculated billings as revenue plus the change in deferred revenue during the period. Trailing 12-months calculated billings represent the sum of the last four quarters of calculated billings.

Free cash flow, which is a non-GAAP financial measure, is calculated as net cash used in operating activities, reduced by purchases of property and equipment and capitalized internaluse software costs. Free cash flow margin is calculated as free cash flow as a percentage of total revenues

Our dollar-based retention rate is based upon our Annual Contract Value (ACV). ACV for a customer is calculated based on the terms of that customer's contract and represents the total contracted annual subscription amount as of that period end. We calculate our dollar-based retention rate as of a period end by starting with the ACV from all customers as of twelve months prior to such period end, or Prior Period ACV. We then calculate the ACV from these same customers as of the current period end, or Current Period ACV. Current Period ACV includes any upsells and is net of contraction or attrition over the trailing twelve months but excludes revenue from new customers in the current period. We then divide the total Current Period ACV by the total Prior Period ACV to arrive at our dollar-based retention rate.

We believe that non-GAAP financial information, when taken collectively, may be helpful to investors because it provides useful supplemental information, consistency and comparability with past financial performance, and assists in comparisons with other companies, some of which use similar non-GAAP financial information to supplement their GAAP results.

The non-GAAP financial measures included in the accompanying tables are not meant to be considered in isolation or as a substitute for comparable GAAP measures; should be read in conjunction with the company's financial statements prepared in accordance with GAAP; have no standardized meaning prescribed by GAAP; and are not prepared under any comprehensive set of accounting rules or principles. In addition, from time to time in the future there may be other items that the company may exclude for purposes of its non-GAAP financial measures. Because of the non-standardized definitions of non-GAAP financial measures, the non-GAAP financial measures as used by the company in the accompanying tables have limits in their usefulness to investors and may be calculated differently from, and therefore may not be directly comparable to, similarly titled measures used by other companies.

The company encourages investors to carefully consider its results under GAAP, as well as its supplemental non-GAAP information and the reconciliation between these presentations, to more fully understand its business. Please see the tables included in this presentation for the reconciliation of GAAP and non-GAAP results,

## Financing activities:

Proceeds from initial public offering, net of underwriters' discounts and commissions
Payments of deferred offering costs
Proceeds from stock option exercises, net of repurchases, and other
Proceeds from shares issued in connection with employee stock purchase plan

## Other

Net cash provided by (used in) financing activities
Effects of changes in foreign currency exchange rates on cash and cash
equivalents
Net increase (decrease) in cash, cash equivalents and restricted cash
Cash, cash equivalents and restricted cash at beginning of period
Cash, cash equivalents and restricted cash at end of period
