Q4 FY24 Investor Presentation

February 28, 2024

Safe harbor

This presentation contains “forward-looking statements” within the meaning of the “safe harbor” provisions of the Private Securities Litigation Reform Act of 1995, including but not limited to, statements regarding our financial outlook, long-term financial plans, product development, business strategy and plans, market trends and market size, opportunities and positioning. These forward-looking statements are based on current expectations, estimates, forecasts and projections. Words such as “expect,” “anticipate,” “should,” “believe,” “hope,” “target,” “project,” “goals,” “estimate,” “potential,” “predict,” “may,” “will,” “might,” “could,” “intend,” “shall” and variations of these terms and similar expressions are intended to identify these forward-looking statements, although not all forward-looking statements contain these identifying words. Forward-looking statements are subject to a number of risks and uncertainties, many of which involve factors or circumstances that are beyond our control. For example, the market for our products may develop more slowly than expected or than it has in the past; there may be significant fluctuations in our results of operations and cash flows related to our revenue recognition or otherwise; we may be unable to sustain the level of growth that our business has experienced in prior periods; we may fail to successfully integrate any new business, including Auth0, Inc.; we may be unable to attract new customers, or retain or sell additional products to existing

customers; we may be unable to retain key personnel; global economic conditions could worsen; a prior or future network, data or cyber security incident that has allowed or does allow unauthorized access to our network or data or our customers’ data could damage our reputation, cause us to incur significant costs or impact the timing or our ability to land new customers or retain existing customers; we could experience interruptions or performance problems associated with our technology, including a service outage; and we may not be able to pay off our convertible senior notes when due. Further information on potential factors that could affect our financial results is included in our most recent Quarterly Report on Form 10-Q and our other filings with the Securities and Exchange Commission. The forward-looking statements included in this presentation represent our views only as of the date of this presentation and we assume no obligation and do not intend to update these forward-looking statements.

Any unreleased products, features or functionality referenced in this presentation are not currently available and may not be delivered on time or at all. Product roadmaps do not represent a commitment, obligation or promise to deliver any product, feature or functionality, and you should not rely on them to make your purchase decisions.

Multiple Growth Vectors

Innovation in platform and network

Landing and expanding in large enterprise

International expansion

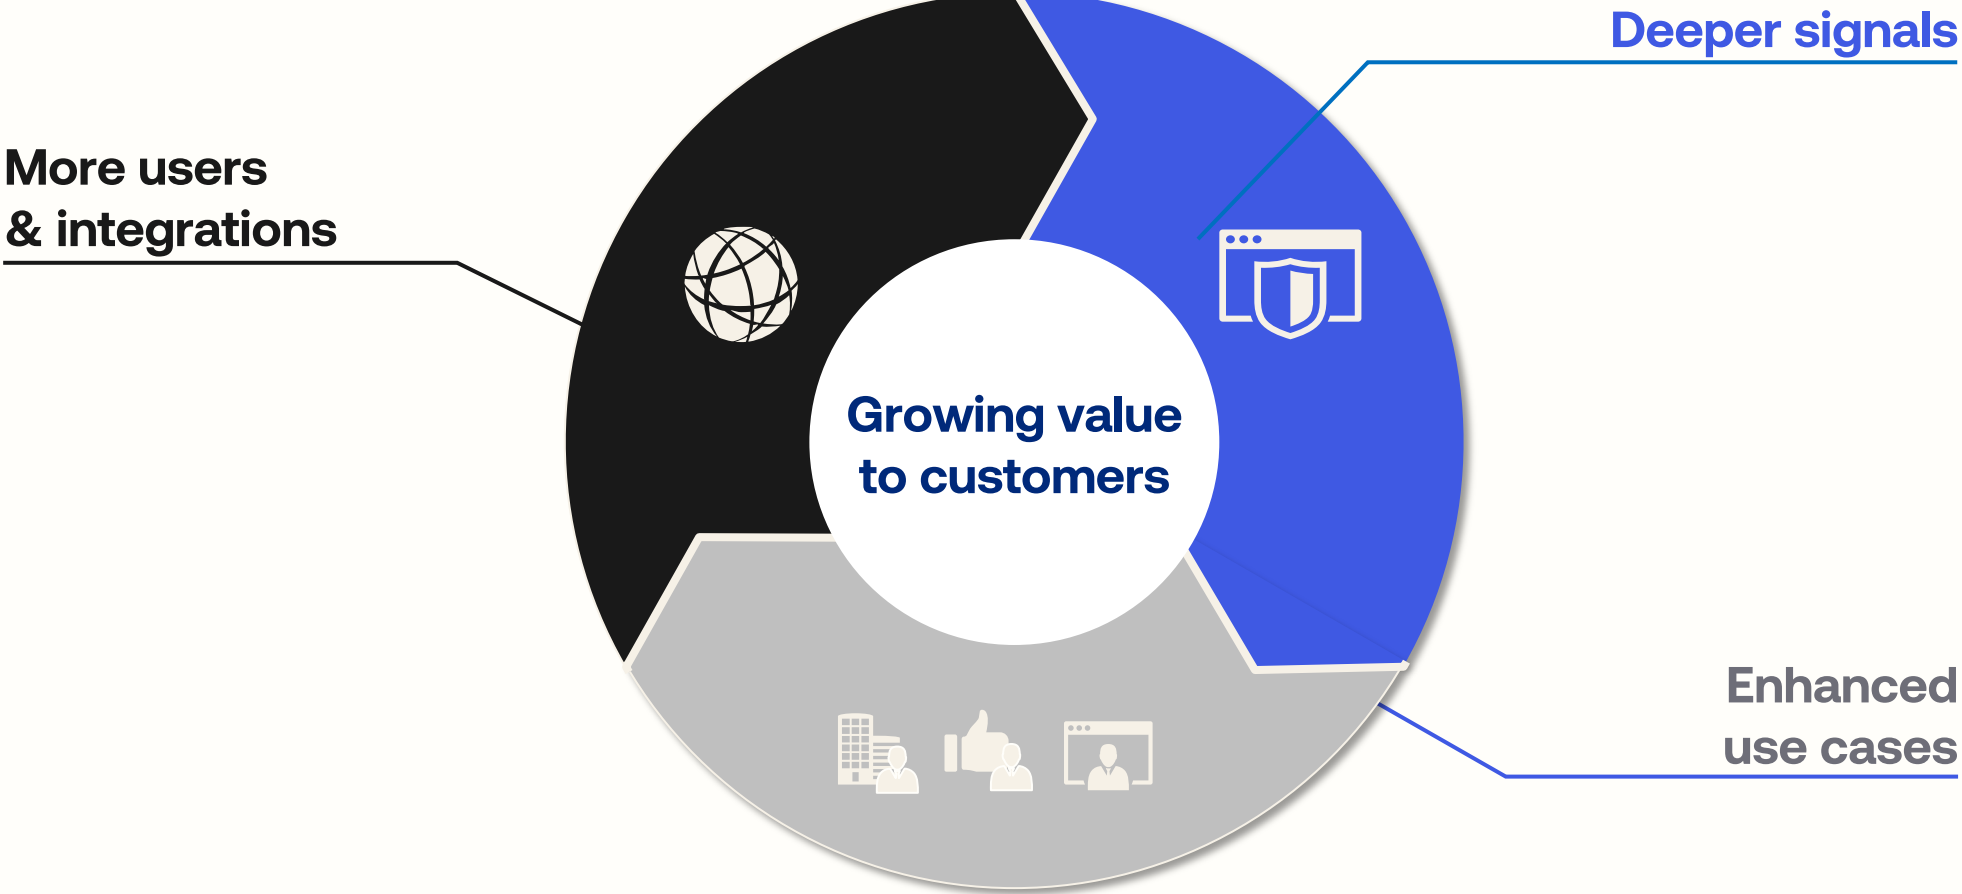

Leveraging partner ecosystem

Innovation in Platform and Network

More users and integrations result in deeper signals and enhanced use cases

Okta is the superior choice vs. Microsoft - every time

Enterprise Agility

Okta accelerates identity for the world's largest organizations

- Okta saves News Corp 1,000 work hours per year for M&A and domain consolidations¹

Reliability & Performance

Okta protects customers from outages and critical service limits

- From 2021-2023, Microsoft suffered a total of 1,500 min in outages.^{2,3,4,5} Okta had 69 minutes⁶ in the same span
- Microsoft suffers reporting latencies at a minimum of 2 hrs up to 8 hrs⁷

Ease of Use & Time to Value for the Best Outcomes

Okta delivers the solution customers need most

- Despite being free, only 34% of Microsoft admins adopt MFA whereas 90% of Okta's admins adopt MFA^{8,9}
- Okta is the only vendor recognized as a Gartner® Peer Insights™ Customers' Choice for Access Management 5X in a Row¹⁰

Executing on Identity Challenges

Okta consistently delivers a complete identity solution

- Okta placed higher than Microsoft and CyberArk in all use cases on the Gartner Critical Capabilities for Access Management¹¹
- Okta placed highest on the Gartner Magic Quadrant for Ability to Execute for the 3rd straight year¹²

Okta Integration Network

Okta ensures best-in-class integrations for the entire app ecosystem

- Microsoft integrations favor its own platform first and best^{13,14,15}
- Okta provides unique and deep integrations that customers want^{16,17}

Mitigate Commercial and Operational Risk

Okta's customers avoid risks and reliance on a single vendor

- Changing contract terms represent commercial risk with heavy dependency on a single vendor
- "Customers may see cost increases somewhere between 30-50% when switching to Unified (support)"¹⁸

Total Addressable Market Calculation Methodology

Workforce Identity and Identity Governance and Administration (IGA) TAM based on over 50,000 U.S. businesses with more than 250 employees (per 2019 U.S. Bureau of Labor Statistics) multiplied by 12-month ARR assuming adoption of all our current products and announced IGA products which implies a market of \$21 billion domestically, then multiplied by two to account for international opportunity. Privileged Access Management (PAM) TAM based on internal estimates of Modern Infrastructure Access spend as a percent of Total Cloud Spend based on Gartner Forecast Analysis: Public Cloud Services, Worldwide report.

\$30B Customer Identity TAM based on 4.4 billion combined Facebook users and service employees worldwide multiplied by internal application usage and pricing assumptions.

Statement Regarding Use of Non-GAAP Financial Measures

This presentation contains certain non-GAAP financial measures and other metrics. This appendix contains our reconciliation of those non-GAAP measures and other financial metrics.

This presentation may reference one or more of the following non-GAAP financial measures: non-GAAP gross profit, non-GAAP gross margin, non-GAAP operating income (loss), non-GAAP operating margin, non-GAAP net income (loss), non-GAAP net margin, non-GAAP net income (loss) per share, basic and diluted, non-GAAP tax rate, free cash flow and free cash flow margin.

Certain of these non-GAAP financial measures exclude stock-based compensation, non-cash charitable contributions, amortization of acquired intangibles, acquisition and integration-related expenses, restructuring costs related to severance and termination benefits and lease impairments in connection with the closing of certain leased facilities, amortization of debt discount, amortization of debt issuance costs and (gain) loss on early extinguishment of debt. Acquisition and integration-related expenses include transaction costs and other non-recurring incremental costs incurred through the one-year anniversary of the transaction close.

In addition to these exclusions, starting in fiscal 2024, we subtract an assumed provision for income taxes to calculate non-GAAP net income. We utilize a fixed long-term projected tax rate of 26% in our computation of the non-GAAP income tax provision to provide better consistency across the reporting periods. The non-GAAP tax rate could be subject to change for a variety of reasons, including changes in tax laws and regulations, significant changes in our geographic earnings mix, or other changes to our strategy or business operations. We will periodically reevaluate the projected long-term tax rate, as necessary, for significant events, based on our ongoing analysis of relevant tax law changes, material changes in the forecasted geographic earnings mix, and any significant acquisitions.

Free cash flow, which is a non-GAAP financial measure, is calculated as net cash provided by (used in) operating activities, less cash used for purchases of property and equipment, net of sales proceeds, and capitalized software. Free cash flow margin is calculated as free cash flow as a percentage of total revenue.

Our dollar-based net retention rate is based upon our annual contract value, or ACV, which is calculated based on the terms of that customer's contract and represents the total contracted annual subscription amount as of that period end. We calculate our dollar-based net retention rate as of a period end by starting with the ACV from all customers as of twelve months prior to such period end, or prior period ACV. We then calculate the ACV from these same customers as of the current period end, or current period ACV. Current period ACV includes any upsells and is net of contraction or churn over the trailing twelve months but excludes ACV from new customers in the current period. We then divide the current period ACV by the prior period ACV to arrive at our dollar-based net retention rate.

We believe that non-GAAP financial information, when taken collectively, may be helpful to investors because it provides consistency and comparability with past financial performance and assists in comparisons with other companies, some of which use similar non-GAAP financial information to supplement their GAAP results.

The non-GAAP financial information is presented for supplemental informational purposes only, and should not be considered a substitute for financial information presented in accordance with GAAP, and may be different from similarly-titled non-GAAP measures used by other companies.

The principal limitation of these non-GAAP financial measures is that they exclude significant expenses that are required by GAAP to be recorded in our financial statements. In addition, they are subject to inherent limitations as they reflect the exercise of judgment by our management about which expenses are excluded or included in determining these non-GAAP financial measures. A reconciliation is provided in the appendix for each non-GAAP financial measure to the most directly comparable financial measure stated in accordance with GAAP.

Investors are encouraged to review the related GAAP financial measures and the reconciliation of these non-GAAP financial measures to their most directly comparable GAAP financial measures, and not to rely on any single financial measure to evaluate our business. Please see the tables included in this presentation for the reconciliation of GAAP and non-GAAP results.

⁽¹⁾ Amounts reported in millions are rounded based on the amounts in thousands. As a result, the sum of the components reported in millions may not equal the total amount reported in millions due to rounding. In addition, percentages presented may not add to their respective totals or recalculate due to rounding.
